Praise for 30 Rights of Muslim Women

“ In ***30 Rights of Muslim Women***, Daisy Khan represents a challenged community in America. Her message is a shield against oppression and a hammer against injustice. She inspires people to take action in their own lives and give confidence to women to stand up for their own rights.

"Khan...establishes Muslim women's religious and moral equality as the foundation for this comprehensive overview....This solid theological guide is worth a look." **Publishers Weekly**
